

LONG TERM SEALERS

Dr. Schutz

Now it's possible:

Hard-wearing floors – protected,
good-looking, non-slip surface.

Perfect Protection for Resin & Self Levelling Floors

Long term sealers from Dr. Schutz.

The solution for your floor

Especially suitable for:

Resin and self levelling floors,
PU and PE floors

In buildings like e.g.

Department stores, shops, offices, banks, public service buildings, hospitals, medical practices, nursing homes, schools, kindergartens, sports and multi-purpose halls, restaurants, pubs, hotels, car showrooms, hairdressing salons, supermarkets, factories etc.

We care about floors!

Is this your floor problem?

- heavily frequented floor, used and worn down
- ugly scratches and unsightly friction marks
- the floor needs intensive care and causes high cleaning costs
- unsightly stains which can no longer be removed – caused by dyes, disinfectants or plasticizers
- limited safety underfoot, compared with new condition

**Your customer and you
both benefit:**

Cost comparison:

Conventional method vs. PU Sealer

**Savings up to 50 % according to FIGR Institute *
(100 m², 15 years)**

Intersport Store,
Bayreuth, Germany

NATO Hangar,
Istanbul, Turkey

* The prices per m² and the technical lifetime of the flooring are based on the calculations of the FIGR (Research and Testing Institute for Facility Management GmbH), as well as the guarantee statement of Dr. Schutz. The costs per m² for replacement of flooring take into account the removal and disposal of the old covering, treatment of the surface underneath, as well as buying and laying new flooring.

Then Dr. Schutz

Long term Sealers are your solution:

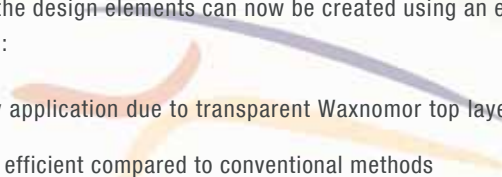

- guarantee 6 times higher long-term protection for the surface against friction damage and scratches
- economical in use and friendly to the environment
- make the floor resistant to chemicals and plasticizers
- improve the overall appearance and makes a good impression
- proven to extend the lifetime of floor use
- guarantee safety underfoot

Your design plus: embedded foil

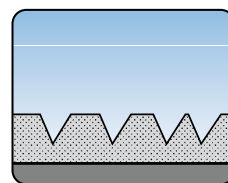

Whether you want your own logo or orientation guides on the floor - the design elements can now be created using an embedded foil:

- easy application due to transparent Waxnomor top layer
- cost efficient compared to conventional methods
- any form and color possible

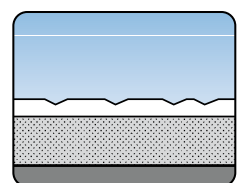

The way it works: Simply ingenious – ingeniously simple.

Extremely robust with PU Sealer:

Without PU protective layer.
Hard wear and dirt particles can cause permanent damage to the surface structure.

PU Sealer provides the surface and makes the floor especially easy to clean and care for.

Our self levelling floor still looks just as naturally attractive as we wanted it, – and that's after 2 years of non-stop "through-traffic". Simply fantastic.

Luis Ramirez, Salesman for Desigual, Barcelona, Spain

Long Term Sealers.

For an extra long lifetime of use – from Dr. Schutz.

Satisfied customers. Since 1955.

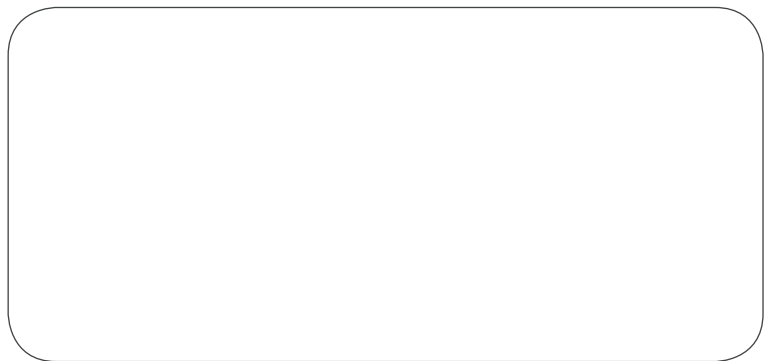

Dr. Schutz is a family business with a true success story. Because we give our customers tailored solutions to their unique problems – for everything to do with renovation and refurbishment of floor coverings.

Driving innovations, protecting the environment, retaining quality.

For optimal results, products and processes have to be developed and updated – while retaining quality and protecting the environment. Therefore Dr. Schutz has invested in water-based systems, as well as in production and renovation with sustainable resources – instead of disposal.

Your advantage: save costs – with a long-term guarantee.

All Dr. Schutz cleaning & care products increase the lifetime of your floor's use and actively reduce maintenance and cleaning costs. Furthermore, you receive a certified guarantee with all products, systems and long-term coatings & coverings.
